ARUN DHARWAD

Full Stack Analyst | Python | React.js | REST APIs | SQL | CI/CD

Bengaluru, India | +91 88619 49365 | arundharwad26@gmail.com | linkedin.com/in/arun-dharwad | github.com/arundharwad-26

PROFESSIONAL SUMMARY

MCA graduate with hands-on full-stack development experience across front-end, back-end, and database layers, using Python, FastAPI, and React.js. Skilled in building and integrating REST APIs, working with relational and NoSQL databases, and supporting the full application lifecycle from requirements through testing and deployment. Experienced with Git-based version control and CI/CD workflows, along with exposure to AI/ML-enabled solutions. Strong analytical thinking, debugging skills, and ability to translate business requirements into working, well-documented technical solutions.

SKILLS

Front-End: React.js, HTML, CSS, JavaScript
Back-End: Python, FastAPI, REST API Development, JWT Authentication
Databases: MySQL, MongoDB, SQLite
Integration & Deployment: API Integration, Git, CI/CD
AI/ML Exposure: Machine Learning, Scikit-learn, Pandas, NumPy, Model Evaluation
Concepts: SDLC, OOP, Agile, Technical Documentation, Debugging & Defect Resolution

PROJECTS

Collaborative Code Editor *Solo Project | github.com/arundharwad-26/collaborative-code-editor*

Django · React.js · TypeScript · WebSockets · REST APIs · SQLite

- Built a real-time collaborative code editor enabling multiple users to write, edit, and synchronize code simultaneously, using WebSockets and Operational Transformation to maintain consistency across sessions.
- Developed the backend with Django and Django Channels to manage WebSocket connections, room-based collaboration, and user authentication/authorization.
- Designed a responsive frontend with React.js and TypeScript, integrating SQLite for data persistence and delivering a scalable full-stack architecture.

Brain Stroke & Cardiac Arrest Prediction System *KSCST, Government of Karnataka Sponsored | Team of 4 | Mar - May 2026*

- Selected as 1 of 365 projects approved statewide by KSCST under the Government of Karnataka's 49th Series Student Project Programme.
- Built and tested an AI/ML-enabled prediction service, benchmarking 4 models on 5,110 records to reach 92.27% accuracy with Random Forest.
- Deployed the model via a FastAPI REST endpoint, validating performance using Precision, Recall, F1-Score, and Confusion Matrix.

EXPERIENCE

Data Science Intern - Codtech IT Solutions Pvt. Ltd. *Feb 2026 - Mar 2026 (6 Weeks)*

- Solved real-world problem statements end-to-end, covering data collection, cleaning, testing, and model building within defined timelines.
- Applied structured debugging and documentation practices, collaborating within a team to deliver working solutions.

EDUCATION

Master of Computer Applications (MCA) - Nitte Meenakshi Institute of Technology, Bengaluru *2024 - 2026*

CGPA: 8.30 / 10

Bachelor of Computer Applications (BCA) - Dr. DG Shetty BCA College, Dharwad *2021 - 2024*

CGPA: 8.23 / 10

CERTIFICATIONS

- Software Engineer Certification - HackerRank (May 2026)
- AI/ML Engineer Certification - micro1 (Mar 2026)
- Python 101 for Data Science - IBM CognitiveClass
- Data Science using R - Infosys Springboard

ACHIEVEMENTS

- Selected for the KSCST 49th Series Student Project Programme (Government of Karnataka, 2025-2026) - 1 of 365 projects approved statewide.
